

## Planning & Environment Committee

### Cleves Close

#### 1. Verge Planting

- 1.1 A resident request has been received to add a small amount of shrub planting to the corner of a verge. This is requested to mitigate against an ongoing issue with driving across a residential verge and parking on the grassed area.
- 1.2 Resident feedback suggests additional planting would be sufficient to discourage and should not create a negative impact.
- 1.3 The area could be mown and maintained with the addition of planting and as this is a soft obstruction, should not be considered as a highway issue.

#### 2. **Financial Implications**

- 2.1 There are minor financial implications for the cost of planting and staff resources to conduct the work. These can be incorporated within day to day consumables and staffing time.

#### 3. **Recommendations**

- 3.1 That the Committee considers the request.

Paula Harrison,  
Parish Manager
