

WEST SWINDON PARISH COUNCIL

Planning & Environment Committee

Planting at Bevil

1. Introduction:

- 1.1 West Swindon Parish Council receives communications from residents regarding problem parking on residential verges. This Committee has reviewed problem areas in previous meetings and there has been a debate around allowing verge parking alongside discouraging parking.

2. Bevil:

- 2.1 A resident at Bevil, Freshbrook has highlighted that the reduction in planting and removal of trees from a bed near the entrance to Bevil has resulted in the space being vulnerable to parking.

- 2.2 The resident has asked for Councillors to consider boosting the planting in this area to minimise the likelihood of repeat parking. Historically the shrub bed had a number of trees within it but these were removed over time.
- 2.3 The Parish Team have a delivery of low growing snow-berry shrub plants due this Autumn and any surplus plants could be added to the border along with any surplus bulbs.

3. Recommendations

- 3.1 That this Committee considers a solution for Bevil.

Paula Harrison
Parish Manager
