- The proposal relates to: The removal of the existing pole to be replaced by the installation of a new 18-metre-high monopole supporting 6 no. antennas with a wraparound equipment cabinet at the base of the column, the installation of 3 no. new equipment cabinets and ancillary development thereto. The existing monopole will be removed and the ground made good as soon as reasonably practicable after it is no longer required, once the new monopole is installed and fully operational.
