Dear Paula

RE: Provision of additional parking at Pilgrim Close development.
YOUR REF: Property Cab Member

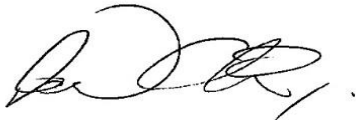

Thank you for your letter, which was received on 2nd July 2019 in relation to the above matter. I apologise for the delay in responding.

I have reviewed the Parish Council's request and presented the matter to our Directors Board on 30th July 2019. It is the decision of the Board that on this occasion, the Parish Council's request cannot be accommodated and we are unable to provide the additional vehicular spaces.

The development hosts a sustainable drainage system that includes the provision of an attenuation tank, which is located within the open area where you have suggest the additional spaces could be located. Unfortunately, if additional spaces were to be provided within this location, it would compromise the future maintenance of the tank which the new occupiers of the properties will be reliant upon.

It is with regret that we are unable to provide further parking at the Parish's request, although I trust this letter clarifies the reasoning behind the decision.

Yours sincerely

Adam Gatier
Project Director
Swindon Housing Development Company Ltd.
